Anti-hair Loss Lotion

Indications

MEDICAL-AESTHETIC & DERMATOLOGICAL PROCEDURES

- Non scarring alopecia
- Pre & post FUR or FUE
- Post Laser Therapy
- Complementary to microneedling and PRP

Suitable for all hair types
for both men and women.

Instructions for use & Combinations

HOW TO USE

- **Post procedure:** 10 to 15 days post hair transplant use once a day to optimize and prolong the results.
- **For home use:** Distribute one pressure with the applicator onto the scalp section by section and then massage into scalp thoroughly with fingertips. Apply once to two times a day depending on the amount of shedding – first results are visible after 3 months of consistent use and the optimal results are after 6 to 8 months. Use ideally at night, on clean, dry scalp. This formula is a leave on treatment. Do not wash hair or scalp after application.

COMBINATIONS

- Possible concomitant use of CEBELIA Anti Hair Loss Lotion and CEBELIA Soothing Lotion to calm scalp inflammatory conditions.

Results

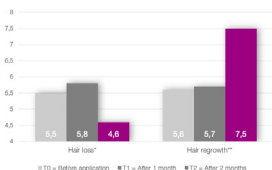

Hair loss decreases significantly between the 1st and the 2nd month of application

Appreciation = -16%

Hair visibly regrows throughout the test

Appreciation = +34%

Evaluation of the efficiency on hair loss & regrowth after 1 and 2 months of application, twice a day, during 2 months.

* Rating from 0 (non-existent) to 10 (severe) ** Rating from 0 (very low) to 10 (excellent)
Usage test carried out on a panel of 10 individuals

Visibly inhibits hair loss and supports hair health thus the hair looks denser and the procedures results last longer.

ANTI HAIR LOSS – PREVENTS OXIDATIVE STRESS – PROTECTING
