CEBELIA

French Patented Derma - Aesthetic Skincare

Indications

Intensive Anti-Aging

MEDICAL-AESTHETIC & DERMATOLOGICAL PROCEDURES

- Aging signs (fine lines, dryness, sagging skin)

Complementary skincare to ALL types of anti-aging aesthetic procedures

Suitable for all phototypes

Instructions
for use

HOW TO USE

- **For daily use:** on cleansed skin, apply morning and/or evening, on face, neck & décolleté. Favor upward movements. Avoid using on damaged skin.

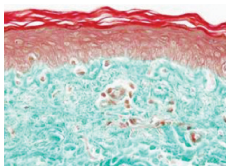

COMBINATIONS

- Possible concomitant use of CEBELIA Intensive anti-aging at night to target aging signs and promote skin recovery and CEBELIA Comfort Cream in the morning to protect from environmental stress.

Evaluation of the anti-aging activity of CEBELIA Intensive Anti-Aging on human living skin explants

T.8 - CONTROL

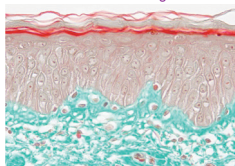

DEJ
Epidermis

DEJ's flattened rete ridges appearance

T.8 - CEBELIA

Intensive Anti-Aging containing Laminin 5 active fragment

DEJ's rete ridges are restored

DEJ = dermo-epidermal junction

Results

Cebeline® contained in CEBELIA Intensive Anti-Aging induces 2 major actions:

- 1 / Restore DEJ's* rete ridges:
 - Solid anchoring of dermis to epidermis
 - Larger surface area for exchanges with the epidermis
- 2 / Increase cell anchoring:
 - Better resistance to external impacts
 - Better healing and regeneration process

Visibly reduce signs of aging.
